

**Question 15, other**

A small tax on all property owners, one that would not hurt the elderly.

Doesn't lane county pull a property tax that Dunes city can take over for themselves?

Get a bigger piece of the pie that we already pay for. No new taxes.

create a tax that benefits local residents im tired of paying for things in florence proper that do not apply to me....schools, police, fire/emt etc.

It doesn't Dune city should go away and we become unincorporated lane, or west lake

Don't fund the city and create any more fees or taxes of any kind

Lane County taxes

property tax, grants, fees, all of the above are great ideas

DON'T fund yourself!

What do you need money for????You already get a tax from our electric bill!!!!!!!!!!!!!!

City needs to disincorporate and go back to county

Dis incorporate small town discrimination if you have money you can do what you want here no different than lane county

Along with property taxes I would like the short term rental to contribute more. And when a home built for just two people is advertised for 12 plus two dogs - surely their septic system needs to be pumped more often and tge home owners should also pay a decent city tax perhaps 100.00 per booking. They will still make money by passing these costs to guests.

Recoup tax from Florence city

You don't need to exist, therefore there is no need for funding. Your services are redundant.

Unincorporate

It doesn't

I don't know.

It does not. We go back to being Westlake again

Don't raise taxes just get our fair share of Lane County taxes already being paid for services we do not receive like water, sewer & cops
