

**Question 12, other**

MAGA2024

Lane county sheriff is great, I don't believe we need an officer at this time. Our crime rate is extremely low. If the City of Dunes City does expand at some point, then maybe re-evaluate hiring an officer. I have never had an issue contacting Lane County Sheriff if needed. Or even Oregon state police. The last time I needed help Oregon state police was here in 15 minutes. I feel safe here. I don't believe a code enforcement officer is necessary, we have north west code professionals to inspect new builds and any other permitted work. If something is not permitted the property owner will pay the price when they sell the home.

Reduce speed limit on clear lake road, it's ridiculous!!!

Persevere nature

code enforcement will not go over well here. Who ever that is will not be liked

Lane County Sheriff is fine

Contracting with the Sheriff's Office/OSP is only way to work, one police officer would not be enough

**ENFORCE RIPARIAN ZONE VIOLATIONS**

Disban Dunes City and go back to being Lane County

We need a chance to vote on the elimination of Dunes City as an entity or not!

Get the City's water rights perfected and transfer the commercial users on it (the small water districts) to the City's commercial use permit.

A burn ban within Dunes City; the air quality is hazardous to the health of the citizens when people are burning brush

Reviewing ordinances and getting rid of ones that do not matter .

Concern about 2 stroke engine watercraft polluting local waterways and water supply.

Not familiar with current codes here being new but do know HOA guidelines

There's no current need to over-regulate or make big changes

Code Enforcement officer is going to be hated and Don't do this

Enforce speed on darlings Loop, maybe with the large speed reducing bumps you see in suburban area neighbors and near schools.

code enforcement seems lax i know its a somewhat a complicated problem.

Make sure all property codes are being monitored and enforced

Dunes City to go away

end the City

Lake surveys to check residents safe docks and waterfronts.

seek to help citizens get speed limites lowered etc
